

# Polietileno PE-500 Antimicrobial

| General properties                      |                         | Test method |                   |
|---|-------------------------|-------------|-------------------|
| Density                                 | DIN EN ISO 1183-1       | g/cm3       | 0,96              |
| Water absorption                        | DIN EN ISO 62           | %           | <0.01             |
| Flammability (Thickness 3 mm / 6 mm)    | UL 94                   |             | HB                |
| Mechanical properties                   |                         |             |                   |
| Yield stress                            | DIN EN ISO 527          | N/mm2       | 27                |
| Elongation at break                     | DIN EN ISO 527          | %           | >50               |
| Tensile modulus of elasticity           | DIN EN ISO 527          | MPa         | 1200              |
| Notched impact strength (charpy)        | DIN EN ISO 179          | kJ/m2       | no break          |
| Shore hardness                          | DIN EN ISO 868          | scale D     | 65                |
| Thermal properties                      |                         |             |                   |
| Melting temperature                     | ISO 11357-3             | °C          | 135               |
| Thermal conductivity                    | DIN 52612-1             | W/(m*K)     | 0,40              |
| Thermal capacity                        | DIN 52612               | kJ/(kg*K)   | 1,90              |
| Coefficient of linear thermal expansion | DIN 53752               | 10-6K-1     | 150-230           |
| Service temperature, long term          | Average                 | °C          | -100...80         |
| Service temperature, short term (max.)  | Average                 | °C          | 100               |
| Heat deflection temperature             | DIN EN ISO 306, Vicat B | °C          | 79                |
| Electrical properties                   |                         |             |                   |
| Dielectric constant                     | IEC 60250               |             | 2,4               |
| Dielectric dissipation factor (106Hz)   | IEC 60250               |             | 0,0002            |
| Volume resistivity                      | IEC 60093               | Ω *cm       | >10 <sup>14</sup> |
| Surface resistivity                     | IEC 60093               | Ω           | >10 <sup>14</sup> |
| Comparative tracking index              | IEC 60112               |             | 600               |
| Dielectric strength                     | IEC 60243               | kV/mm       | 45                |

**Product characteristics**

- Antimicrobial action against bacteria, virus, mould, yeasts & fungi.

**Typical field of application**

- Bottling and food industry
- Medical and orthopedic technology
- Cutting boards

The data stated above are average values ascertained by statistical tests on a regular basis. They are in accordance with DIN EN 15860. The data above are provided purely for information and shall not be regarded as binding unless expressly agreed in a contract of sale.
